SOLVITY SYSTEMS: EMPLOYEE HANDBOOK & EQUIPMENT MANUAL

1. Company Overview
Solvity Systems is a hardware manufacturer specializing in environmental monitoring equipment. Founded in 2021, our headquarters is located in Cape Town, South Africa. Our primary mission is to provide zero-downtime data logging for agricultural and industrial clients.

2. Standard Working Hours
Standard working hours are from 8:30 AM to 4:30 PM, Monday through Friday. Employees are expected to be online and available during these core hours. Remote work is permitted up to two days a week, subject to manager approval.

3. The "AeroSense" Sensor
The AeroSense is our flagship atmospheric temperature and humidity sensor. It is designed for outdoor environments.
- Operating Temperature: -20°C to 60°C.
- Battery Life: 3 years under normal conditions.
- Waterproof Rating: IP67 (protected against dust and water immersion up to 1 meter).
- Warranty: The AeroSense comes with a standard 1-year warranty. If the sensor fails due to manufacturing defects within 12 months, it will be replaced free of charge.

4. The "LinkHub" Gateway
The LinkHub is the networking gateway that connects our sensors to the cloud.
- Connectivity: Requires a hardwired Ethernet connection. It does NOT support Wi-Fi or Bluetooth.
- Maximum Sensors: It can connect up to 30 individual sensors simultaneously.
- Reset Procedure: To factory reset the LinkHub, hold the recessed button on the back for 7 seconds until the LED flashes blue twice.

5. Refund and Return Policy
If a client wishes to return a product, they must request a Return Merchandise Authorization (RMA) number within 14 days of purchase. A 20% restocking fee applies to all opened items. Custom-configured sensors are non-refundable.

6. IT and Security
All company laptops must have full-disk encryption enabled. Passwords must be rotated every 60 days. If you suspect a phishing attempt, forward the email to security@solvity-systems-fake.com and do not click any links.
